Continued Examination Under 37 CFR 1.114 and Response to Amendment

Receipt is acknowledged of a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) and a submission, filed on 8/4/2005. The submission, however, is not fully responsive to the prior Office action for the following reasons:

Newly amended claims 1-8 and newly submitted claims 21-34 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The newly amended and newly submitted claims are drawn to devices for transdermal electrotransport delivery. Applicant's amendment to the claims impermissibly shifts from the elected Group I composition invention to the nonelected Group II device invention.

Furthermore, since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, applicant's amendment is not fully responsive to the prior Office Action. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period for reply supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).
